This product can expose you to ethylene oxide, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

NFPA® RATINGS

Health: 0; Flammability: 0; Reactivity: 0

INGREDIENTS/CAS #:

Water (7732-18-5); Fluoropolymer (Withheld); Hexylene Glycol (107-41-5); Methylisothiazolinone (2682-20-4); Benzisothiazolinone (2634-33-5).

Please Recycle.

SURE THING Fabric and Carpet Protector creates invisible protection that repels water, oil, dirt, grease, food and other spills that can stain and damage fabrics, upholstery and carpets. It wraps each fiber with an invisible shield that seals out spills and stains. **SURE THING** helps prevent spills from penetrating and staining, keeping fabric, canvas, upholstery and carpeting easy to clean and attractive. It won't affect colors, darken fabric or change the look or feel of fabrics or carpeting.

DIRECTIONS:

SURE THING is ready to use, no dilution necessary. Safe to use on washable fabrics and carpeting. Do not aerosolize, use a course wet spray, a trigger sprayer or a pump-up tank sprayer.

1. Use **SURE THING** in a ventilated area so it will dry easily.
2. Test for fabric colorfastness in a small inconspicuous area.
3. Clean fabric and carpet before applying **SURE THING**. Remove all excess shampoo or detergents before application. **SURE THING** can be sprayed on damp fabric or carpeting.
4. Hold sprayer 8-12 inches from surface. Spray with a slow, sweeping motion until evenly wet. Spray in overlapping rows for complete even coverage.
5. Depending on temperature and humidity, surface will be dry to the touch in about 30 minutes or 1 hour. Fans or brushing will speed dry time. Allow to dry thoroughly before use, usually 2-4 hours.
6. Apply **SURE THING** annually or after every cleaning.

Coverage: Suggested application rate is 1.5 to 2.0 ounces of **SURE THING** per square yard of medium to heavyweight fabrics. One gallon will treat approximately 6 standard size sofas. Use 2 to 3 ounces per square yard on carpets. Coverage will vary with fabric weight and application method.
