Please Recycle.

DE-SCALE ULTRA is exactly what the name implies, an improvement of an already great product. By increasing the concentration of active ingredients and by adding thickening agents to further increase dwell time and provide "cling" for vertical surfaces, **DE-SCALE ULTRA** is the ultimate in cleaning.

DE-SCALE ULTRA is an alternative to acids and ordinary concrete cleaners, etchers, and concrete truck cleaners. Even though it was developed to meet the stringent demands of the concrete care industry, **DE-SCALE ULTRA** is safer for humans and the environment, unlike traditional concrete care products.

DIRECTIONS:

Use **DE-SCALE ULTRA** at full strength to clean and etch concrete surfaces, to remove heavy scale and water deposits, and to clean concrete trucks. Spray onto surface to be cleaned then apply a light amount of water to activate cleaner and let work for 10 to 15 minutes or until fizzing stops. Scrub with a stiff bristled broom or brush. Then rinse thoroughly.

Use **DE-SCALE ULTRA** diluted at a 1:2 ratio, with clean water, for light cleaning and etching of concrete surfaces and for general tool clean up. Apply to surface to be cleaned, allow to work 5 to 10 minutes, scrub with a stiff bristled broom or brush, and rinse thoroughly.

NFPA® RATINGS:

Health: 2; Flammability: 0; Reactivity: 0

CONTAINS/CAS#:

Water (7732-18-5); Organic Salt (506-89-8); Alcohol Ethoxylate (68991-48-0); Xanthan Gum (11138-66-2).
