DIRECTIONS FOR USE:

Pool Water: Use an initial treatment of 12 ounces per 20,000 gallons of pool water. A maintenance dose of 4 ounces per 20,000 gallons of pool water should be added weekly.

If pool water contains high concentrations of oily waste, add 32 ounces of AQUA PURE per 20,000 gallons of pool water initially and follow with weekly treatments of 8 ounces per 20,000 gallons.

Surface Odors and Soils: To treat odors caused by spoiled food, vomit, urine, feces, mold and mildew stains or other organic spills, dilute 1 to 1 with water. Spray a heavy mist to wet the surface and allow the surface to remain wet. To clean heavily soiled equipment, allow to soak in use solution overnight. Repeat as needed.
