If skin irritation or rash occurs: Get medical advice/attention.
Store locked up.

Dispose of contents/container to comply with local/regional/national/international regulations.

*For industrial and commercial use only.
For additional information, see Safety Data Sheet.*

⚠ WARNING: This product can expose you to sulphur dioxide, which is known to the State of California to cause birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

FLASH KLENE-ORANGE is the original powdered cleaner that changes color to let you know that it's on the job. This brightly colored powder turns from orange to green in water to allow the user to determine solution strength. The darker the solution color the more powerful the solution cleaning ability.

FLASH KLENE-ORANGE is the latest member of a family of cleaners that use the amazing cleaning ability of citrus extracts. It quickly penetrates thick deposits of grease, oil, and dirt to get floors, walls, and equipment cleaner than you ever thought possible. **FLASH KLENE-ORANGE** contains no caustic soda - it is safe for most water washable surfaces.

DIRECTIONS:

ON CONCRETE FLOORS: For heavy grime and severe oil staining, wet floor with clean water, then sprinkle **FLASH KLENE-ORANGE** directly onto soiled areas. Scrub with stiff broom and allow to penetrate until deposits are loosened. Rinse floor with clean water.
GENERAL CLEANING: Requires 16 to 32 ounces (2 to 4 cups) of detergent per 5 gallons of water. Difficult soils may require a stronger solution. Swab onto surface and allow to penetrate for 5 to 10 minutes, scrubbing with bristled broom. Rinse thoroughly with clean water. Use **FLASH KLENE-ORANGE** with care on finished floors, as some floor finishes are not detergent resistant and may be harmed by **FLASH KLENE-ORANGE**. As Water Based Parts Washer Solvent: Use 8 ounces (1 cup) in 5 gallons of water.

NFPA® RATINGS

Health: 2; Flammability: 0; Reactivity: 0

INGREDIENTS/CAS#

Sodium Carbonate (497-19-8); Anhydrous Sodium Sulfate (7757-82-6); Sodium Tripolyphosphate, Anhydrous (7758-29-4); Trisodium Phosphate Dodecahydrate (10101-89-0); Sodium Metasilicate (6834-92-0); d-limonene (5989-27-5); Benzenesulfonic Acid, C10-16 -alkyl derivatives (68584-22-5); Linear Alcohol Ethoxylate (34398-01-1).
