Health: 1; Flammability: 0; Reactivity: 0

### INGREDIENTS/CAS #:

Water (7732-18-5); Glycolic Acid (79-14-1);  
Basic Violet 10 (81-88-9).

# HOT PINK FOAM MARKER DYE

**AR-CHEM AG HOT PINK FOAM MARKER DYE** is a highly concentrated, liquid water colorant developed to provide better visibility of agricultural marking foam in darkness or on stubble covered fields. This highly visible dye mixes readily with water and will not stain equipment or leave a residue that will harm plants or soil. **AR-CHEM AG HOT PINK FOAM MARKER DYE** is compatible with most commercial foaming agents.

### DIRECTIONS FOR USE:

**SHAKE WELL BEFORE USING.** Use 16 ounces (one pint) of **AR-CHEM AG HOT PINK FOAM MARKER DYE** to each 40 to 50 gallons of mixed foam solution. Add foam marker concentrate to clean tank and fill with water, or follow directions on the foam concentrate label. Add **AR-CHEM AG HOT PINK FOAM MARKER DYE** last.

### DISPOSAL:

Offer empty container for recycling. If recycling is not available, discard container in trash.

*For industrial and commercial use only.*

*For additional information, see Safety Data Sheet.*

Please Recycle.  
Canister made from 25% post-consumer recycled plastic.
